MILKING & MASSAGE TABLE

SensXtivate
Beyond the Senses

THANK YOU FOR YOUR TRUST

MILKING & MESSAGE TABLE

Welcome to the SensXtivate Experience

A word from our team

Dear Customer,

Thank you for choosing SensXtivate. We're proud to welcome you, and grateful for the trust you've placed in our brand.

Your new table was designed with one goal: to help you create unforgettable moments of relaxation, pleasure, and connection. True to our promise, may every experience take you **Beyond the Senses**.

Your satisfaction is our highest priority. Every detail of this product — and of this manual — was crafted to make your experience simple, comfortable, and safe. Please take a few minutes to read these instructions before your first use.

If anything is ever unclear, reach out to us before leaving a review. We're here to help, and your feedback is what makes us better.

Enjoy every moment.

With gratitude,

The SensXtivate Team

MILKING & MASSAGE TABLE

Designed for Comfort.

Premium Quality. Every Detail.

HIGH-DENSITY FOAM

Wipes clean in seconds.

Durable, skin-friendly finish.

Strong. Stable. Built to Perform.

INDEPENDENTLY TESTED

Verified for strength and structural reliability.

FAST SETUP

Ready in just a few simple steps.

REINFORCED FRAME

Engineered for stable everyday performance.

1. Parts List

A. 	B. 	C. 	D. 				
E. 	F. 	Tool 1 					
G. 	H. 	I. 	J. 				
Number	Qty	Number	Qty	Number	Qty	Number	Qty
G	22	H	2	I	22	J	22

2. Installation

STEP	Process	Finished Picture
1. Please open (A) as shown in the illustration. Do not install (F).		
2. Open (A) as shown in the illustration. Connect (H), then follow the steps to install (F) onto (A), and use Tool 1 to tighten (F) and (H).		
3. Please install (E), (G), (I), and (J) according to the instructions, and hand-tighten (G), (I), and (J).		
4. Then place (C), (D), and (B) on top, and you're all set!		

How to Use Your SensXtive Table

440 lbs / 200 kg

MAXIMUM STATIC LOAD, EVENLY DISTRIBUTED

BEFORE YOU BEGIN

- Place the table on a hard, flat, and perfectly level surface.
- Before each use, confirm that all bolts, legs, and panels are fully tightened and locked.
- Never exceed the maximum load of 440 lbs (200 kg), evenly distributed.

DURING USE

- The main user lies face down, with the face resting inside the upper cradle to keep the neck aligned and the airway clear.
- Move gently and avoid sudden shifts in weight that could unbalance the table.
- Keep fingers and hands clear of the access panels and openings while they are being adjusted.

CARE & MAINTENANCE

- Wipe all surfaces after each use with a soft, damp cloth and a mild, non-abrasive cleaner.
- Do not use bleach, solvents, or harsh chemicals on the cushion or frame.
- Let the table dry fully before storing it in a dry place, away from direct sunlight.
- Re-check and re-tighten all bolts periodically to keep the structure stable.

⚠ SAFETY WARNINGS & LIMITATION OF LIABILITY

WARNING — ASSUMPTION OF RISK. This product is intended exclusively for private use by consenting adults. By using it, you voluntarily accept all risks inherent to its use.

Maximum static load: 440 lbs (200 kg), evenly distributed. Do NOT stand on the table, place concentrated weight on the edges of the openings, or operate the access panels carelessly (risk of pinching or crushing).

The manufacturer, its distributors, and designers disclaim all liability for injury or damage resulting from misuse, improper use, lack of supervision, or modification of the original structure. **Keep out of reach of children.**

Frequently Asked Questions

01. How much weight can the table safely hold?

The table supports up to 440 lbs (200 kg) of evenly distributed static weight. For your safety, never stand on it or place concentrated weight on the edges of the openings.

02. How do I clean and maintain it?

Wipe all surfaces after each use with a soft, damp cloth and a mild, non-abrasive cleaner. Avoid bleach, solvents, and harsh chemicals. Let the table dry fully before storing it in a dry place, away from direct sunlight.

03. The frame feels slightly loose after assembly. Is that normal?

This usually means the bolts need a final tightening. Re-check every bolt with the included tools and make sure all parts are fully secured before use. We recommend re-tightening periodically.

Still have a question? We're here to help.
